Montgomery, Alabama

Summary

I am extremely motivated to constantly develop my skills and grow professionally. I spend a large portion of my free time learning new things that I believe will help me advance in life and further my career. In recent years, I have focused on learning web development outside of school. This includes an understanding of JavaScript programming. I currently work in the construction industry but I am adamantly working to obtain my first role with a great technology or banking company.

Experience

Commercial Plumber
Comfort Systems USA • Montgomery, AL
09/2018 - Present
I currently read building plans and help construct plumbing systems for commercial properties.

Window Restoration
Old House Specialists • Montgomery, AL
01/2016 - 09/2018
I refurbished and installed historic windows.

Quality Control
Hyundai Motor Manufacturing Alabama • Montgomery, AL
06/2014 - 01/2016
I would check vehicles for water leaks, paint defects, and scan the vehicle's computer for any errors.

Skills

Microsoft Office, Web Development, JavaScript, Microsoft Access, Node.js, NPM, Express.js, MongoDB, HTML5, CSS3, Quality Control, Computer literacy

---
